Notes:

Validate questionnaire : Before submitting the questionnaire, you have to validate the data clicking on the button 'Validate questionnaire' on the top left-hand corner of the table. It is of the utmost importance to confirm that there are no pending errors (see 'Errorlog' worksheet), since a questionnaire with errors (red shaded cells) will be rejected.

Cell shading:

White: Data provision is mandatory.
Light grey: The calculation of data is automatic. They can be edited after unlocking the cell with the button 'Unlock formulas'.
Dark grey: The calculation of data is automatic. They can not be edited.
Light orange: Footnotes (only to be filled-in when relevant).
Black: Not applicable.
Light purple shaded boxes: reporting is mandatory only for Member States that include those amounts in the recycling rates. Member States that report on repair of wooden packaging SHALL NOT include these amounts in total recycling or in total waste generated or in any other white box! Instead, please indicate in the sheet Metadata if you wish to include the amounts in your recycling rates. The calculation of the adjusted recycling rates will be conducted by the Commission according to the method set out in the guidance document.

- ⁽¹⁾ Commission Decision 2005/270/EC establishing the formats relating to Directive 94/62/EC on packaging and packaging waste as last amended by Commission Implementing Decision 2019/665.
- ⁽²⁾ The amounts reported shall exclude the amount of wooden packaging repaired and of metals from IBA. For repair of wooden pallets, the Commission will calculate the adjusted recycling rates separately.
- ⁽³⁾ The amount reported includes all types of energy recovery. The amount reported shall include both energy recovery at R1 facilities and (other) incineration at waste incinerators with energy recovery.
- ⁽⁴⁾ This includes backfilling. Repair of wooden packaging, recycling and energy recovery are not included.
- ⁽⁵⁾ The 'Metal (total)' row should be equal to the sum of the 'Ferrous metal' and 'Aluminium' rows. Amounts for other metal packaging may be added to the totals using 'unlock formulas'.
- ⁽⁶⁾ Ferrous metals recycled after their separation from incineration bottom ash shall be reported separately here and shall be included in the row for reporting ferrous metals.
- ⁽⁷⁾ Aluminium recycled after separation from incineration bottom ash shall be reported separately here and shall be included in the row for reporting aluminium.
